FOR FURTHER INFORMATION CONTACT: Mr. Richard Fyne, Assistant Director for Loan Management (261), Loan Guaranty Service, Veterans Benefits Administration, Department of Veterans Affairs, Washington DC 20420, (202) 273-7380.

SUPPLEMENTARY INFORMATION: We propose to amend the Loan Guaranty Regulations to change the formula for calculating the net value of property securing VA guaranteed loans being terminated and to add criteria for granting preforeclosure debt waivers.

Under current law, when a VA guaranteed loan is reported as being in default, the Secretary is required to establish the "net value" of the property securing the guaranteed loan in default. "Net value" means the fair market value of the property minus certain costs that VA would incur to acquire, manage, and dispose of the property. The relationship between the net value of the property, the total indebtedness of the veteran at the time of loan termination, and the amount of VA's guaranty determines whether or not VA may acquire the property following foreclosure from the foreclosing loan holder. These factors also affect the Government's claim payment to the foreclosing holder under the guaranty. In addition, they will affect the amount of the veteran's debt to the Government under those circumstances where, by law, VA is entitled to establish a debt against a veteran. Moreover, they affect the VA's loss on the guaranty transaction which, in turn, will affect the veteran's ability to have previously-used entitlement restored.

Under § 36.4301, VA computes "net value" using cost data for the preceding three fiscal years. We propose to change how VA computes "net value." Instead
