## **FY 2025 FBI Strategy:**

The FBI's vision, mission, and strategic objectives are supported by its overall strategy. The mission of the FBI is to protect the American people and uphold the Constitution. The FBI's vision statement – Ahead of the threat – outlines the FBI's desired strategic position. The FBI will achieve this by continuously evolving to mitigate existing threats and recognizing and anticipating threats it has not yet encountered.

The FBI headquarters divisions must align to the overall strategy by ensuring that each division strategy aligns with overall strategic objectives. This vertical alignment within the organization ensures all divisions are strategically focused on the same objectives and working collectively towards the FBI mission and vision. Strategy reviews are held with each headquarters division to discuss progress towards the strategic objectives throughout the fiscal year, and senior executive management routinely evaluates the organization's progress.

The FBI tracks the execution of its mission and operational strategy across headquarters operational programs, field offices, and Legat offices through the Integrated Program Management process. This process enables threats to be identified across the organization with accompanying strategies. Every two years, headquarters operational divisions prioritize national threats, determine FBI National Threat Priorities, and develop national-level strategies to mitigate the threats. The 56 field offices and 62 Legat offices use this information to formulate a field and Legat office prioritization and complete their own specific strategic plans. These strategies undergo mid-year and end-of-year evaluations, and the field and Legat offices are held accountable to their performance targets. FBI executives and Program Managers hold regular meetings to review and evaluate strategy effectiveness throughout the fiscal year.

The FBI budget strategy and budget requests are designed to enable the FBI to address the current range of threats while also focusing on the future needs of the FBI. An increasing number of the FBI's programs and initiatives are multi-year in nature, and require phased development, deployment, and operations and maintenance funding. Moreover, a multi-year planning approach allows FBI management to better understand the implications of proposed initiatives. This FY 2025 budget request is designed to promote capabilities and strategies that are sufficiently agile to meet ongoing, emerging, and unknown national security, cyber, and criminal threats.

## **FY 2025 Program Changes:**

### **Salaries and Expenses**

#### **Cyber:** \$7.0 million and 12 positions (4 agents)

The requested resources will increase the FBI's capacity for unilateral, joint, and enabled operations with other Federal, State, local, and international partners. The request focuses on the development of Victim Engagement and Incident Response. Current services for this initiative are classified.

#### **Counterintelligence:** \$17.8 million and 44 positions (2 attorneys, 12 agents)

The requested resources will enhance the FBI's ability to combat foreign adversary intelligence collection and subversion tactics against the United States. Current services for this initiative are classified.

#### **National Instant Criminal Background Check System:** \$8.4 million and 27 positions (1 agent)

The requested resources will strengthen the National Instant Criminal Background Check System, ensuring the safety and security of the American people among those who choose to exercise their Second Amendment rights. Upon passage of the Bipartisan Safer Communities Act, FBI NICS reprioritized system enhancements to ensure successful implementation. This request will enable the FBI to continue system enhancements and future development, which will provide increased system availability and automation of the NICS transaction life-cycle process. Current services are \$166.0 million and 1,129 positions (2 agents).

#### **Restoration of 2023 National Security and Law Enforcement Personnel:** \$85.4 million and 270 positions (5 attorneys, 60 agents)

The requested resources will enable the FBI to mitigate any significant decline of capabilities across all functional areas, especially for operationally focused personnel working critical national security and law enforcement cases and programs. Recent limitations and restrictions placed on FBI resources have put the organization's ability to protect the American people and uphold the Constitution at risk, and this request is imperative to alleviate a significant portion of those concerns. Headquarters functions provide critical support to field office operations, and this request will restore positions across numerous FBI headquarters programs, including but not limited to Criminal Justice Information Services, Counterterrorism, Operational Technology, and Critical Incident Response. Positions will ensure the FBI can continue support to its State, local, Tribal, Intelligence Community, and other Federal partners and will support the FBI's personnel with adequate facilities, supplies, equipment, travel funding, and contract support. There are no current services for this enhancement.

#### **Rescission - FBI S&E:** -\$50.0 million and zero positions

The rescission cancels \$50.0 million in prior year balances.
